## Biomedical Inc.

## BIOFORS ND-IBD 0.25

## Generic Name:

BIOFORS ND-IBD Inactivated Vaccine

## General Description:

BIOFORS ND-IBD 0.25 contains inactivated Newcastle Disease Virus (NDV) LaSota Strain and Infectious Bursal Disease Virus (IBDV) TS Strain in a stable oil emulsion. NDV LaSota was amplified in embryonated chicken eggs, whereas IBDV TS Strain was amplified in cell cultures. Allantoic fluids of embryonated chicken eggs containing amplified NDV LaSota and cell culture containing amplified IBDV TS Strain were harvested and inactivated. Oil adjuvant was added. The vaccine has a physical appearance as white oil emulsion.

## Composition per dose ( 0.25 mL ):

Newcastle Disease Virus LaSota strain
Infectious Bursal Disease Virus TS strain. $\geqq 10^{7.2} \mathrm{TCID}_{50}$

## Indication for Use:

Prevention of the Newcastle Disease and Gumboro Disease in poultry.

## Method of Vaccination:

Administer 1 dose $(0.25 \mathrm{~mL})$ to each chicken at 2 weeks old or younger via subcutaneous injection. Administer 1 dose $(0.25 \mathrm{~mL})$ to each chicken of 2 weeks old or older via intramuscular injection.

## Withdrawal Period:

Subcutaneous injection: 4 weeks; intramuscular injection: 6 weeks.

## Storage Precaution:

Store in a dark place at $2-8^{\circ} \mathrm{C}$. Do not freeze.

## Packaging:

200Doses $/ 50 \mathrm{~mL} /$ Bottle, 400Doses $/ 100 \mathrm{~mL} /$ Bottle, 1000Doses $/ 250 \mathrm{~mL} /$ Bottle, and 2000 Doses $/ 500 \mathrm{~mL} /$ Bottle

## Shelf Life:

2 years

## Precautions:

-Follow the instructions from and used under visions by a veterinarian.
-Recover vaccine to room temperature before use.

- Shake well to mix thoroughly before use.
-Protect from sunlight and high temperatures.
- Vaccinate healthy chickens only.
